Motor & Gear Engineering provides fast repair or new motor replacement for ALL types of motors including Servo, AC or DC motors. Our clean room laboratory and its newly installed Mitchell Servo equipment allow our engineers to quickly diagnose and solve Servo motor breakdowns. The quality of our repair materials and the expertise of our staff allow us to offer a **2 YEAR Warranty on our motor rebuilds** – that's twice the protection of most new motors. And when it is time to consider a new motor, we carry a full stock of new motor inventory – ready to ship to you 24/7.
