

- Sales of all major gearbox brands
- Siemens / Flender Gearbox
Master Distributor / Build Center
- Gearbox Repair & Rebuild
- Preventative Maintenance Programs
& Field Inspection Services

Providing service and repair on all major brands including:

LINK-BELT, FALK, PHILADELPHIA, KOHLMAN, EISENBEIS, KRAUSS-MAFFAI, HANSEN, FLENDER, SUMITOMO, FARRELL, SANTASALO, FOOTE JONES, HORESBURG SCOTT, DAVID BROWN, SEW, ROSSI

Whether you need new gears & gearboxes or require repair/rebuild, you can count on **Motor Gear & Engineering**. As a Master Distributor for Siemens/Flender and other manufacturers we offer a wide selection of the new equipment you need (including in-stock Motox lines) to keep your production up and running. And our staff of Professional Engineers provide in-house design and certification of gearing layouts.

For repairs or rebuilds, **Motor Gear Engineering** provides hobbing, grinding & polishing capabilities (up to 12 AGMA), and our in-house machine shop provides fast turnaround work on shaft, pinion, spacers, tapers, and other special modifications. You can trust the experience of our highly trained staff – which averages over 15 years of experience per person. All rebuilds utilize top-end SKF/NTN bearings and installations are performed in our clean-room – a unique **Motor & Gear** offering - that can provide up to 25% more life for your gears and bearings. All of our service work and materials are backed by a 1 year warranty. Convenience, Quality & Confidence. You can trust **Motor & Gear Engineering** with all of your gear/gearbox needs.
