

- Re-manufactured Exchange Program
- Hydraulic & Pneumatic Cylinder Repairs
- Hydraulic Pump & Motor Repairs
- Custom Fabrication of Replacement Parts
- Certified KSB/Ebara/ABS/Pumpex Pump Repair Center
- Sales of All Major Hydraulic Motors

Motor and Gear Engineering provides hydraulic and pneumatic cylinder re-manufacturing that meet or exceed OEM specifications including the in-house manufacturing of all internal components required such as rods, pistons or packing glands. For rebuild/refurbish requirements of pumps and motors, our staff provides the service and replacement of all soft components (using reverse engineering when necessary), laser alignment and pressure testing. Installation (pull/push) is available in the field. A 1 year warranty is provided on all service and materials.
